CALL FOR BIG IDEAS IN GOLDEN (B.I.G) GRANT APPLICATIONS

Dear Non-Profit Organization,

In alignment with the Golden Civic Foundation's mission "to operate for the charitable and civic purposes for the citizens and residents of the City of Golden," we are announcing the opportunity for Golden-based non-profit organizations to submit applications for our annual Big Ideas in Golden (B.I.G.) Grant to support community projects that will make a *BIG* and lasting impact on the Golden community. One B.I.G. Grant will be selected to be the beneficiary of a percentage of funds raised at our 2023 Fall Fundraiser. The funding amount offered is contingent upon total funds raised at this fundraiser (which has ranged from \$55,000 to \$82,000 for past Paddle Raise project beneficiaries). Project applications, which can only be sponsored by an established 501(c)(3) organization, school or partnered with a fiscal agent, must be submitted by May 12, 2023.

Please see the attached information sheet for more detailed grant guidelines and criteria, and application, and feel free to contact julie@goldencivicfoundation.org with any questions.

Best regards,

A handwritten signature in black ink that reads 'Julie Bartos'.

Project Scope

The Foundation requests that Golden-based non-profit organizations to submit proposals for projects that most likely will not be addressed by local, City of Golden tax funds and that will improve the quality of life for a broad base of the Golden community. "Shovel-ready," brick and mortar projects are preferred but all ideas will be assessed in relation to their impact on our community.

Preferred Impact Areas:

- **Arts & Culture:** Vibrant art and cultural amenities and opportunities to promote cultural enrichment and help drive the local economy. Examples could include public art and theater, music or dance equipment or resources.
- **Civic Development:** "Brick and mortar" type projects that provide improved amenities for our community, such as improvements to a property (like the community track complex) or land, property acquisition or re-purposing of a property for the community's benefit (like the American Mountaineering Center or the Meyer Hardware building).
- **Critical Needs Support:** Infrastructure to give residents of all ages equitable access to opportunities for healthy living, such as social service facilities or amenities.
- **Environment:** Projects that sustain a healthy local community and provide opportunities for outdoor entertainment and recreation, such as gardens, trails, parks and land preservation.
- **Other:** The Foundation will consider all ideas, and preference will be placed on physical ("brick and mortar") type projects that will have a long-lasting impact on the quality of life for the community of Golden.
